TECHNOLOGY: NUCLEIC ACIDS

NUCLEIC ACIDS SERVICE

Clemente Associates provides a service for the isolation of Nucleic acids and Proteins from a variety of species and tissues. Some examples of this service are:

- Mouse and Rat fetal tissues for total RNA and mRNA
- Human cancerous tissue
- Diseased Tissues
- Plants
- Fish

All human tissues are consented tissues and they are isolated within 12 hours postmortem, snap frozen and available as single donor.

PLEASE INQUIRE WITH YOUR REQUESTS.
